

LIVING EARTH MORE THAN MULCH

Living Earth More than Mulch is our premium 100% weed-free mulch for the garden. Applied over the existing ground soil, it creates a blanket around plants giving your garden an aesthetically appealing finish. To make our mulch we have blended Living Earth's organic compost with untreated wood that has been chipped and dyed black. The result is arguably the best looking mulch around for all types of commercial and residential gardens.

PRODUCT SPECIFICATIONS

pH	5.0 - 8.5
Conductivity (mS cm-1)*	≤5.0
Nitrate & Ammonium*	≤200ppm
Weeds	absent
Living Earth Organic Compost	25%
Moisture	≥39-51%
Particle size	≥ 100mm (typically ≥70mm)
Bulk density - wet wt basis (kg per m3)	≥400 to 600
*Analysed in a 1:1.5 water extraction	

HANDLING PROCEDURE

When handling larger volumes of compost, ensure stockpiles are covered to give protection against weather conditions and windblown weed seeds. Do not plant directly into compost. It **MUST** be mixed with existing soil.

INGREDIENTS

- » Living Earth Compost
- » Recycled untreated wood
- » Environmentally Friendly Dye

FREIGHTING & APPLYING

A truck and trailer of More than Mulch holds approximately 50m³. Suitable for blower trucks. Spread More than Mulch to a depth of 50-100mm around newly planted areas or over existing gardens.

RECOMMENDED USE

Use Living Earth More Than Mulch around plants to a depth of minimum 50mm

- » Perfect for locking in moisture at the roots of the plants and keeping weeds out
- » Placed over a hard difficult soil, the compost in More than Mulch works down and interacts with it, encouraging worms to the surface to 'open up' the texture.
